Summary

Full-stack .NET and Angular developer with 3 years of experience building scalable web applications, reusable UI frameworks, and REST-based enterprise solutions. Experienced in ASP.NET Core, Angular, SQL Server, and Agile development practices with deployment activities, performance optimization, and cross-functional collaboration. Skilled in designing maintainable architectures, resolving critical production issues, and delivering high-quality software releases in fast-paced environments. .

Skills

Languages: C#, JavaScript, TypeScript, SQL

Backend: ASP.NET Core, .NET Framework, ASP .NET Web API, Entity Framework Core, LINQ

Frontend: Angular, HTML5, CSS3, Bootstrap, RxJS

Database: SQL Server, MySQL, Database Design, Stored Procedures

Tools: Git, Azure, Postman, Visual Studio, VS Code

Concepts: OOPs, Design Pattern, REST API Design, MVC Architecture, Microservices, Agile

Experience

Monocept Consulting, Hyderabad

Jan 2024 – Present

Software Engineer

- Built and enhanced a dynamic form rendering engine using JSON schema, taking end-to-end ownership from development through release and reducing UI development effort by 40% to enable faster feature delivery.
- Resolved production bugs and critical issues, reducing downtime by 30% and ensuring high system reliability.
- Participated in Agile sprint planning, daily stand-ups, release activities, and cross-functional collaboration to deliver scalable and maintainable solutions.
- Owned application deployments across development and production environments, resolving release issues quickly to support stable delivery and reduce service disruption.
- Worked closely with QA, business teams, and stakeholders to understand requirements and deliver high-quality solutions.
- Tech Stack: C#, ASP.NET Core, Angular, TypeScript, SQL, REST APIs, Git.

Swabhav Techlab

May 2023 – Dec 2023

.NET Intern

- Assisted in developing backend services using .NET framework and Web APIs.
- Debugged and fixed application issues, improving performance and reliability.
- Worked with SQL databases for data storage, retrieval, and query optimization.
- Supported implementation of new features and enhancements in existing applications.
- Tech Stack: C#, .NET, SQL, REST APIs, Git.

Education

National Institute of Technology, Calicut

2021 - 2023

MCA (Master of Computer Applications)

CGPA: 7.31/10

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

Awards and Certificates

- **Monthly Best Performance Award:** Recognized for consistently delivering high-quality work and resolving critical production issues efficiently.
- **IIS Web Server Certification (Udemy):** Gained hands-on experience in configuring, deploying, and managing web applications using IIS.
